

# Workwear worn well

*Jessica Darnbrough*

**PROSKILL** has launched a workwear range direct from Sweden that is comfortable and durable.

Miners can customise the workwear to suit their needs.

The range includes shorts, pants, a tool vest, and a tool harness.

According to the company, the tool harness spreads the weight of tools evenly across the back.

The harness can be customised, with pouches and holders for a range of tools and equipment.

The range is made from a hard wearing cotton/polyester lightweight fabric and includes kneepad pockets that lock removable kneepads in place and Velcro tool fasteners for detachable holster pockets, pouches, and hammer holders.
