

Customised workwear.

Wear it well

PROSKILL has launched a workwear range from Sweden that includes shorts, pants, a tool vest, and a tool harness.

The tool harness spreads the weight of tools evenly across the back.

The harness can be customised, with pouches and holders for a range of tools and equipment.

The range is made from a hard wearing cotton/polyester lightweight fabric and includes kneepad pockets that lock removable kneepads in place and Velcro tool fasteners for detachable holster pockets, pouches, and hammer holders.
