

# Swedish range of workwear launched

◆ FROM Sweden comes a new range of **construction clothing**. The **Skillers** range is considered a flexible system of integrated workwear. It includes shorts, pants, tool carrying accessories and a clever tool vest and is targeted at professional electricians, plumbers, carpenters, construction and building tradespersons and landscapers. They are made from a hard wearing cotton/polyester lightweight fabric that is comfortable. Features include kneepad pockets that lock the removable kneepads in place and anticipate the wearer's lateral movements and Velcro tool fasteners for detachable holster pockets, pouches and hammer holders.

In conjunction with its range of construction clothing, Skillers also offers Flexi-System, an innovative system of tool attachments and padded shoulder harness designed to spread the weight of tools and equipment evenly. This is unlike many tool belts which transfer all the weight to one's
