

Put a little Swedish innovation in your pants

From Sweden comes a new range of construction clothing designed to meet the comfort, style and functional needs of today's skilled professional tradesman. The Skillers range is made from a comfortable lightweight, hard wearing cotton/ polyester fabric.

The range includes shorts, pants, tool carrying accessories and a tool vest. It seeks to appeal to professional tradesman who want hard wearing practicality, but also want to look good.

A man's got to be comfortable in his own shorts and workpants. The Skillers range are designed with a host of features including kneepad pockets that lock the removable kneepads in place, Velcro tool fasteners for detachable holster pockets, pouches and hammer holders.

The patented Flexi-System is an innovative system of tool attachments and padded shoulder harness designed to spread the weight of tools and equipment evenly. Flexi-System allows tradesmen to customise their work wear.

For the suave Swede in all of us, the company's signature products include: basic lightweight, long lasting comfortable pants with holster pocket work pants for tools and top-loading kneepad pockets for the patented, lightweight, anatomical kneepads; and the 12 pocket tool vest which eliminates stress and strain puts all tools within easy reach.
