

# Swedish range of workwear

A NEW range of construction clothing from Sweden is billed as 'a flexible system of integrated workwear to meet the comfort, style and functional needs of today's skilled professional tradesman'.

The Skillers range includes shorts, pants, tool carrying accessories, and a clever tool vest.

Made from a hard wearing cotton/polyester lightweight fabric, the shorts and workpants are designed with features that are said to be practical and designed for all-day comfort.

Features such as kneepad pockets that lock the removable kneepads in place, with Velcro tool fasteners for detachable holster pockets, pouches, and hammer holders.

Skillers' Flexi-System is an innovative system of tool attachments with padded shoulder harness designed to spread the weight of tools and equipment evenly.

The system allows tradesmen to customise workwear to suit their individual needs, with pouches and holders for a wide range of tools and equipment.

Products include basic lightweight pants with top loading kneepad pockets, holster pocket work pants for tools, and top-loading kneepad pockets for lightweight, anatomical kneepads, 12-pocket tool vest
